CHEMNITZ, ZWICKAU & MULDENTAL

As a city of culture with an industrial pulse, Chemnitz is on its way to being European Capital of Culture 2025. A city tour will give you an overview of the city. The Villa Esche is a must-see: it is a European architectural monument and one of the highlights of the European Henry van de Velde Route. The afternoon is free for you to explore the city on your own.

The Zwickau tourist region is full of surprises. The West Saxon city of Zwickau is known as THE AUTOMOBILE CITY. As a visitor to the August Horch Museum, you will gain unique insights through the integration of the 80 large exhibits as well as the multitude of automobile-related small objects in backgrounds and scenic presentations related to their time of origin. In the afternoon, you will discover the historic rooms of Waldenburg Castle.

In the Mulde Valley, the leisure adventures away from the big cities continue. On a steep rock in Central Saxony rises the most beautiful knight's castle in Saxony: Kriebstein Castle. After a tour of the castle, the journey continues to Wechselburg Basilica. Thanks to its porphyry elements, it is not only exemplary for the architectural history of the region, but also houses one of the most precious Romanesque works of art in the world with its massive rood screen. To round off the day, visit Rochsburg Castle. Situated on a rocky spur in the middle of a nature reserve, the castle, which was first mentioned in a document in 1190, watches over the Zwickau Mulde valley. Afterwards, it is worth taking a detour to the Choco del Sol chocolate factory.
